materialManager Classic | FEATURES

materialManager...

- ...enables you to record and manage board materials and edgebands/edgeband coils.
- ...is a web application and can be used with a laptop or desktop PC. An Internet connection is required for this purpose (see the "Requirements" section).
- ... is cloud based and available through the tapio ecosystem. The subscription and the operation of materialManager is thus limited to countries where tapio is accessible.
- ...is currently limited to the management of boards and edgebands, in future other materials can be managed as well, such as glue, paint etc.

Connecting material data to machines / other applications

- Selection of material in other digital HOMAG applications, e.g.
 - CADmatic machine controller
 - intelliDivide optimizer
 - productionManager (digital job folder)

Automatic use of material data within the corresponding application.
